

# Kidney care diary

You have recently been informed that your kidney function is greatly deteriorating.

This can be quite a shock to you, but with the help of your care provider and your family and friends, we will do everything we can to maintain your kidney function as long as possible.

This booklet serves as a guide in your follow-up process.

We therefore ask you to bring this booklet with you every time you have a visit with your GP, nephrologist or nephrology nurse.
