

# Ordering medication from the hospital pharmacy

**azdelta**

Uw ziekenhuis.

Dear patient

We wrote this leaflet to give you more information about ordering your medication in advance.  
In doing this, we hope to serve you more efficiently.

On behalf of the hospital pharmacists

## Aim

By ordering medication in advance, we can work more efficiently, reduce waiting times and allow more time for specific patient queries.

## How?

Medication can be ordered in advance from the hospital pharmacy.

### Important conditions

- A prescription for the medication is required.
- The order is placed at least two working days before the desired collection date.
- Delivery depends on the availability of the medicine; stock shortages are beyond our control.

Orders can be placed **via e-mail to the desired campus (see the contact details overleaf).**

## What must definitely be mentioned?

- Which medicine (name) and what dose (how many mg/ g).
- Number of packages  
Legally, no more than three months' supply is ever allowed and only in the presence of a correct prescription.
- The date, the time and the campus at which the order will be collected.
- Please provide us with your phone number or email address so we can contact you if the medicine is not available.

**When collecting**, clearly mention that your medication was ordered in advance.

Orders must **be collected within three months**.

# Contact?
